WALTON THINKS DRAGON'S ARREST MEANS VICTORY

Oklahoma Governor Still Emphatic in Edict Against Legislature.

NEWSPAPERS ARE FLAYED

Preparations Being Made to Have Proceedings of Military Court Spread Over State by Circulars in Face of Their Refusal to Publish.

By United Press.

OKLAHOMA CITY, Okla., Sept. 22.—Two additional military courts to examine witnesses in the investigation of alleged lawlessness and Ku Klux Klan rule in Oklahoma were established today by Governor Jack Walton.

Scores of Klansmen, rounded up by special agents of the governor, were examined by the military inquisitors as plans were speeded to complete the proceedings before the date set by state legislators for a special session to impeach Governor Walton.

The testimony already uncovered by the governor's military aides, has placed entire responsibility for whipping by night riders and other acts of lawlessness at the door of the Ku Klux Klan. On the strength of this evidence the governor caused the arrest of H. C. Jewett, grand dragon of the Oklahoma realm of the Klan, and made the sensational declaration "the Klan is shipped. Rule of the invisible empire in Oklahoma is done for."

Meanwhile state legislators pushed with renewed vigor their plan for a special session of the legislature early next week to consider the impeachment proceedings against the governor.

W. D. McBee, "Patrick Henry" of the movement to call the law makers into extraordinary session replied to the governor's accusation that the majority of the legislators are members of the Klan.

"I am a member of the Ku Klux Klan," McBee declared, "but apparently I am in bad standing as I have not attended a meeting since Governor Walton joined the order February 13 of this year. We will assemble peaceably next Wednesday noon and stand upon our rights," reiterated McBee. "Investigation of the legality of our call will reveal whether we have a right to assemble. If we have and the governor prevents us by force from meeting we shall carry the fight to the federal court. If we have no right under the law we shall declare the session adjourned and return to our homes."

OKLAHOMA CITY, Okla., Sept. 22. "The Ku Klux Klan is beaten," Governor J. C. Walton declared today following the arrest of M. C. Jewett, grand dragon for the organization in Oklahoma, and other sensational developments in the executive warfare on the invisible empire.

The warrant for the arrest of Jewett was issued by Prosecutor J. K. Wright who admitted he had personally paid an initiation fee in the Klan. Jewett was released on $1,000 bail bond after pleading not guilty. The evidence on which Jewett's arrest was based was given to the military court of inquiry by Dr. A. A. Maupin, a dentist, and former Klan member. He said Jewett admitted to him that he had "laid on the lash" personally in the flogging of E. M. Merriman.

The governor is still determined that the meeting of the Oklahoma Legislature, called for next Wednesday to start impeachment proceedings against him, will never assemble.

Walton said he had information to prove "beyond a doubt" that W. B. McBee, leader in the move for the special session of the legislature, is an active member of the Duncan, Okla., Klan.

The governor accused the "Klan-kept press" of Oklahoma of refusing to print the facts developed by the military court of inquiry. However, he said, a great many newspapers outside of the state were giving splendid service.

In order to give the facts of martial law developments to the people of the state Jimmy Mathers of Ardmore plans to have thousands of circulars printed and dropped over the state, telling of the revelations against the Klan obtained by the military court. The governor also said that he would prove that the Klan shipped its records to Atlanta, Ga., when the military investigation started.

Father at Cottage Hospital Visiting Son When Daughter Is Brought in, Seriously Burned

Little Hope for Recovery of Miss Anna Travis of South Connellsville.

Miss Anna Travis, 20 years old, of South Connellsville, a daughter of Mr. and Mrs. O. F. Travis, is in a critical condition today at the Cottage State Hospital, suffering from burns received yesterday when her clothes caught fire while she was canning jelly. Hot paraffine upset, and ignited.

With clothes afire the young woman ran screaming from her home. She ran about the house and finally fell to the ground. A crowd was attracted and the flames were smothered. Mr. Mahaney, janitor at the Gibson school, heard the agonized cries of the girl. Her hair was taking fire when he arrived and he beat the fire out with his hands, burning his knuckles.

The girl was removed to the Cottage State Hospital where little hope for her recovery was entertained. She still lived today, however. Her condition was given as "about the same."

A brother of the girl, Charles Travis, was at the hospital with a broken collar bone. The father was visiting the son when informed that his daughter had been brought in suffering from burns. The injured boy was discharged from the institution this morning.

The accident at the home occurred about 2 o'clock. The young woman was assisting her mother and when she attempted to lift the paraffine container from the stove the handle slipped from her grasp.

BRITISH STATESMEN BELIEVE COLLAPSE OF GERMANY IS AT HAND

By United Press.

LONDON, Sept. 22.—Prime Minister Baldwin was expected to confer with Foreign Minister Curzon today regarding what British statesmen considered as "the imminent collapse of Germany."

It was declared, however, that the latest secret German proposals for abandonment of passive resistance in the Ruhr on the condition that German citizens expelled and arrested be allowed to return to their homes, does not apply directly to Great Britain since it was submitted through the Belgian minister in Berlin.

Great Britain, however, is following the situation closely and understands Chancellor Stresemann's proposals have been submitted officially to both Premiers Theunis of Belgium and Poincare of France.

Premier Baldwin was silent on the subject of his conversation with Premier Poincare in Paris, but well informed persons believed that the new German proposals may have been considered by the two premiers, and were not nearly so sanguine as the French about the truth of reports, widely printed in Paris, that Baldwin and Poincare had reached a basis for agreement. Great Britain will expect anything to happen in Germany when the Stresemann government finally is forced to announce publicly its complete capitulation to the French.

Two Killed, Two Injured, Under Fall

By United Press.

JOHNSTOWN, Sept. 22.—Two men were killed and two injured, one seriously when they were caught under a fall of rock in the mine of the Sonman Shaft Coal Company at Sonman, near Portage, while they were walking in the main heading of the mine on their way to work this morning. Another man with them escaped injury.

The dead are Regis Beiter, aged 24, married, of Portage and Peter Kopchak, 26, married, of Portage. The injured men are Earl Beiter, 26, married, a brother of Regis, right leg fractured and body bruised, taken to the Mercy Hospital here. Thomas Kaituf, 30, of Portage, back injured slightly when struck by a piece of rock.

The men were walking single file, Regis Beiter and Kopchak being in the lead when tons of rock fell suddenly upon them, burying the two men. After nearly a half hour's work, other miners who hurried to the scene succeeded in getting Beiter and Kopchak from under the rock but they were so badly injured that Beiter died with a few minutes and Kopchak died two hours later in the first aid room of the company. Both were crushed about the head and chest.

The Beiter brothers were sons of Mr. and Mrs. Fred Beiter. They were prominent in athletics at Portage, especially football.

SEPTEMBER COURT COMES TO CLOSE

The September term of criminal court in Uniontown was closed Friday and all jurors were discharged.

Orlando Fabbri was acquitted by a jury yesterday afternoon before Judge E. H. Reppert on charges of highway robbery in connection with the Allison payroll robbery at Thornton Station near Brownsville on the morning of March 11, 1922. A sextor of bandits held up the West Penn street car at that place and relieved the payroll clerk of more than $20,000 and shot Elmer Hill, the officer, in the shoulder.

Fabbri offered a complete alibi and was supported in his claim by the superintendent and other officers of the Springer Coal Company in Washington county where he was employed at the time of the robbery.

In cross suits between William A. Hughes and Roy Hughes, of Dunbar township, a jury before Judge J. Q. an Swearingen yesterday afternoon convicted both parties on charges of assault and battery and aggravated assault and battery. The suits were the result of a dispute between two brothers, George and William Hughes, over a fence line. Roy Hughes, a son of George Hughes, interceded for his father and struck his uncle over the head with a shovel.

No Excuse Now for Coal Price Boost, President Believes

By United Press.

WASHINGTON, Sept. 22.—Anthracite coal prices in various cities were being boosted today as two government agencies have to do with coal and its distribution went out of business. They are the United States Coal Commission and the federal fuel distributor.

At the same time it was stated on behalf of President Coolidge that while he fears there is no excuse for coal rises, he does not contemplate any interference in the price situation beyond his request to the Federal Trade Commission to gather at once all possible facts bearing on prices charged by wholesalers, jobbers and retailers.

Mr. Coolidge hopes that this data, when made public, may act as a deterrent to any dealers disposed to profiteer, with the recent strike as their excuse.

How a strike of less than a month's duration could be made the excuse for increasing prices to the consumer is beyond Mr. Coolidge's comprehension, and his instructions to the trade commission are to set forth the facts—whether any increase in retail prices is justified and if so, what justifies it.

TROOP 5 SCOUTS CELEBRATE THEIR WINNING TROPHY

Presentation of Cup Made at Lutheran Church by Legion Commander.

FEAST AFTER SPEECHES

Boy Scout Troop No. 5, the permanent possessor of the silver loving cup awarded by Milton L. Bishop Post No. 304, the American Legion, to the troop winning it three times in the field meet conducted in connection with the community picnic of the local post, celebrated the third victory by a banquet at the headquarters, Trinity Lutheran Church, last evening. Max C. Floto, post commander, presented the trophy.

Scouts of the troop basked in glory and were glad they were under Scoutmaster Ralph P. Sliger as they listened the the talks of a number of those present at the affair. Mr. Sliger and his assistant H. Dana Wright, were lauded for their efforts and the boys for their loyalty to their officers. Mr. Wright served as toastmaster.

The evening opened with the regular Scout exercises conducted by Senior Patrol Leader "Bud" Bittner. Following this routine Mr. Floto made his presentation address. He said the Legion was much interested in the Boy Scouts and would keep a watchful eye on them, intending to do more for the movement in this city. The trophy was accepted by "Bud" Bittner.

Attorney Walter P. Schenck, president of the Scout Council, was the next speaker. He deplored the lack of interest among the city's business men, who, he said, he did not believe realized the extent of the Scout movement.

"Scouting," said Mr. Schenck, "in my mind is making real men out of real boys under a program that works."

Other talks were given by R. Clark Witt, scout commissioner, Dr. Bennett W. Hutchinson, pastor of the Methodist Episcopal Church, W. G. Davis, principal of the High School, Rev. W. H. Hetrick, pastor of Trinity Lutheran Church, W. P. Clark, commander of William F. Kurtz Post, No. 104, G. A. R., Colonel James J. Barnhart and Charles Hill, both Civil War veterans, John L. Gans and James M. Driscoll.

"Colonel Jim," an ardent booster for Troop 5, gave the boys some sound advice and then amused them with a few humorous stories and a song. He said he was a rooter for them at the picnic and came home thrilled because his "company" had won.

Following the meeting and the talks a lunch, prepared by the mothers and sisters of troop members, was served. It consisted of all kinds of sandwiches, lemonade, ice cream and cake.

Troop No. 5 is also possessor of the Scout Council flag, won in the Scout field meet conducted last fall. The possessor of this flag ranks as the first troop in the city and holds such position in all Scout affairs.

NEW YORK BUSINESS GETS OBJECT LESSON ON ADVERTISING

NEW YORK, Sept. 22.—Lack of advertising space in New York's newspapers tied up by the pressmen's strike will be reflected in all branches of finance, commerce and industry, in the opinion of business executives who have observed the effect of the walk-out. In competent financial quarters today the fear was expressed that unemployment might result from longer crippling of the daily press.

Department store heads, even those catering to permanent customers, said the inability to promote sales through the newspaper columns was proving a serious handicap at the opening of the fall season.

And Wall Street, always dubious as to the real value of the small amount of space it uses in the dailies, was convinced its clients had learned to depend on newspaper advertising for their information on financial offerings. Several big offerings of bonds which were to be put out this week were postponed because of the lack of advertising space.

Stores depending on special sales were most seriously affected. Nearly all the leading department stores began printing circulars for distribution among persons entering their establishments and for their mailing lists. The executives, however, found the hand bills lacked anything like the pulling power of space in the newspapers.

Bernard F. Gimbel, vice-president of Gimbel Brothers, Inc., was quoted in published statements as saying he thought the strike would be injurious to both large and small stores.

Pittsburg Klansmen Fined for Attempt To Burn Cross

By United Press.

PITTBURG, Sept. 22—Ku Klux Klansmen were arraigned in police court today charged with disorderly conduct in connection with an attempt to set fire to a huge cross last night on a hillside about 100 feet from a Roman Catholic Church. Three of the men, R. K. Batz, W. M. Francis and E. H. Neas, were fined $10 and costs but the fourth man, C. J. Schmidt, was held for further hearing when police testified they found two handy-billies in his automobile. An automatic revolver was found in another automobile of which Batz admitted ownership.

Police testified that the rector at the church told them he had received a note from the Klan some time ago stating the Klan would soon "pay him a visit."

RUMORS BALKAN WAR CONTINUE TO WORRY EUROPE

Situation Believed Exaggerated by Prejudiced Rome Dispatches.

SERBS IN BITTER MOOD

By United Press

LONDON, Sept. 22.—Rumors of a possible Balkan war continued here today as the long-drawn negotiations between Italy and Jugo-Slavia for settlement of the question of Fiume failed to reach an agreement. The new Italian dictator of Fiume, General Giardino, intends to depart for Rome Sunday to make a personal report to Premier Mussolini on the situation, the Fiume correspondent of the Daily Express telegraphs.

The string of decrees pouring from the governor's palace shows unmistakably that Rome is determined to remain in Fiume, trade or no trade, this insuring security of the position of Trieste as the principal port of the Adriatic, the correspondent telegraphed. One decree provides for the constitution of a new government council which will act in a purely advisory capacity under "express regulations."

Jugo-Slavia view the whole situation with bitter suspicion. The Serbs envisage an attempt to exclude them while allowing importation of Italians into Fiume.

In the meantime Rome dispatches, which probably can be discounted somewhat because of Italian opposition to Jugo-Slavia, continue to announce alarming differences between Jugo-Slavia and Bulgaria. The Rome newspaper Corriero Italiano learns that the Jugo-Slavs are prepared to occupy Sofia if the Macedonian comitadji enter Serbia from Bulgaria.

GERMAN SITUATION LIKENED TO THAT OF THE AUTUMN OF 1918

By United Press

BERLIN, Sept. 22.—The situation in the Ruhr is becoming constantly worse, according to information here. Some officials even predict a nation-wide outburst inside of a month unless the Ruhr question is settled, and assert the outbreak may occur even if the Ruhr problem is liquidated in the near future.

Today's situation in Germany resembles that of 1918 when Germany's army admittedly had fought many months too long. Conservative Germans fear the Ruhr war also has been over fought by at least four months. They saw the demands of Premier Poincare of France for Germany's "complete and public capitulation" as the only exit for the government unless it wishes to face revolution similar to that which succeeded the armistice in 1918.

HUMBERTSON WILL BE DISMISSED FROM CITY POLICE FORCE

Recommendation to Council Will Follow 10-Day Suspension.

CONDUCT HIGH HANDED

Mayor and Chief Learn of Arrest for Assault and Battery and Their Investigation Confirms Reports. Officer Can Ask for Hearing.

Chauncey L. Humbertson, patrolman of the Connellsville police force was suspended by Mayor Charles C. Mitchell following a hearing Friday night at which it was alleged the officer had been guilty of a rash act. The officer was summoned before the chief executive when it was learned on information charging assault and battery, pointing firearms and carrying concealed deadly weapons had been made against him by Harry McClain of Isabella road before Alderman J. W. Darby of Uniontown.

The matter was not known to Chief P. M. Murphy or Mayor Mitchell until the former was informed by the alderman. The officer was immediately notified to appear for a hearing in order that it might be established whether he was guilty of conduct unbecoming to an officer.

Appearing before the mayor witnesses for McClain and the plaintiff himself alleged that Humbertson had laid hands on him and also pointed a revolver at him. Following the hearing the officer was suspended for 10 days without pay. Unless Humbertson should apply for a hearing before City Council the mayor will recommend to Council that the suspension be made permanent. He said this morning that he intended to take the case before the city solons. It is understood council will undoubtedly approve the recommendation.

McClain alleged that Humbertson visited his home a recent evening, in plain clothes, and demanded that he go with him to face "Rachel," a woman residing in the neighborhood over whom there seemed to have been some domestic trouble.

When McClain refused to go, he testified, the officer pulled a gun. Mrs. Charles Stewart, who had come to the front of the house on hearing the loud voices, testified that she also saw Humbertson with a revolver in his hand. She said she called to him to put the gun away. An aunt, Mrs. Silas Piper, with whom McClain resides, also testified.

Humbertson admitted he was guilty of the charge of assault and battery when it was explained to him that to forcibly lay his hands on anyone constituted such an offense. He said he was not previously aware that such was the case.

As the local authorities were interested only in learning whether or not the officer was guilty of an indiscretion that would warrant his dismissal the case was not brought to a head. There was no testimony as to how the matter was concluded on the evening of the officer's visit.

The hearing before Alderman Darby is scheduled for Monday evening.

Cabaret Girl Slain by Dope Fiends to Conceal An Illicit Love Affair

By United Press.

LOS ANGELES, Sept. 22.—Women drug fiends, crazed by dope, hacked and slashed with scissors at the nude body of Ethel Cass, a cabaret girl, until she was dead.

This is the theory advanced to police today by the woman's former husband, J. W. Cass, who declared that she had been associated with a secret band of women narcotic users shortly before her bloodstained body was found in a hotel bedroom with her two-year-old child. A coroner's jury returned a verdict of homicide.

Police Lieutenant C. H. Craig testified at the inquest that he had found traces of bloody hands on the woman's flesh in such a position that she could not have made them herself. He also swore he discovered a towel hanging in the bathroom that bore the same finger marks that were on the body. The jury discarded suicide and returned an opinion that death was caused by hemorrhages from blows inflicted by a person or persons unknown. The fact that whoever wielded the weapon with which the crime was apparently committed did not break the girl's skull, strengthening the theory that the assailant was a woman.

Cass, the husband, believes that his wife had stumbled on the secret of a love affair of another woman dope user. He thinks that she was killed to prevent her revealing the love secret.

Negro Expulsion At Johnstown to Be Investigated

By United Press.

HARRISBURG, Sept. 22.—Governor Pinchot has ordered a thorough investigation at Johnstown, Pa., where negroes and Mexicans are reported to have been ordered by the mayor to leave the town, it was stated at the Department of Justice here today.

The investigation is being made by Attorney General Woodruff, who said his department was actively engaged in the matter. Deputy Attorney General John N. English left for Johnstown last night to conduct the inquiry and his report on conditions there will be submitted to the governor on his return next Thursday.

Mayor Cauffiel was reported to have ordered all negroes not seven years residents to leave the town, and was later reported to have extended his orders to Mexicans as well. The deportation edict was never verified by the mayor but it is understood many of the foreign element have taken his advice when arraigned before him at police court hearings, to make a hasty retreat.

The governor was first brought into the case by announcement of his determination to "safeguard the constitutional rights" of all residents of the town. He notified the State Department at Washington that the investigation has been ordered into conditions as they affect the Mexicans who were brought to Johnstown to fill the demand for labor.

WASHINGTON, Sept. 22.—Governor Pinchot of Pennsylvania today notified Acting Secretary of State Phillips that he had ordered an investigation of reported order by the mayor of Johnstown that the Mexicans in that town must leave.

Pinchot's telegram was in reply to an inquiry by the department following a request from the Mexican embassy here for information on the Johnstown situation. The governor previously informed the embassy here that he would use all his power to protect the Mexican residents in his state.

Love's Young Dream Ended

By United Press.

CLEVELAND, Ohio, Sept. 22.—Love's young dream for two Pennsylvania couples was ended here today when their plan for a twin elopement was interrupted by the police. They gave their names as Miss Jennie Theil, 17, of Pennsylvania avenue, Monaca; Chester Anderson, 20, of Eighth avenue, Beaver Falls; Mary Orfecharka, 17, of Indiana avenue, Monaca, and John Riley, 19, of Eleventh avenue, Beaver Falls.

The girls said they came to Cleveland to see an aunt of Miss Theil and then were to proceed later in the day to Detroit to be married.

Dahlia Duvetyn Frock Is an Imported Number

Quite smart in hue and texture is this dahlia duvetyn frock, which is one of the popular fall importations that bids for favor.

Sweater Passe; Place Is Taken by Jacket

The sweater is passe. The separate jacket, brilliantly colored, has superseded it, says Harper's Bazar. Made of kasha it is warm, and made in tapestry or embroidered silk or linen it is at least decorative. Worn over a Vionnet hemstitched blouse above a plaited skirt, it composes what is now practically a sports uniform. The felt cloche completes the established costume. Felt has crowded out other materials for sports wear.

Rodier fabrics give just the decorative value sports costumes demand. The brilliant colors and naive patterns, whether in bandannas, handkerchiefs, jackets or blouses, continue to make country dressing more and more picturesque.

Stripes, vertical and horizontal, are very smart. Chanel fosters the mode for horizontal stripes—particularly in embroidered fabrics. Chanel has made some smart sports suits of knitted fabrics, the skirt plain, the jacket patterned somewhat like the Fair Isle sweaters.

Walking sticks are much carried. Beads—large, heavy ones, long strings and short, and even bracelets of them—are universally worn. Sometimes a string of ebony, amber, tortoise shell, carnelian or other colored beads is twisted close about the throat and a longer string, to the lap, is also worn. These beads are round and very large.

Lovely Russian Tunic Makes Welcome Return

The Russian tunic, more radiant, resplendent in shimmer and color, and as sophisticated as the most cosmopolitan of world beauties, is with us again. Few women are going to attempt to resist its appeal, although only the divinely slim, and we might add the equally divinely tall, can wear it with the dash and nonchalance that it deserves. To appreciate it at its full value you should see it scintillating in a metallic sheen and ablaze with color; the scarlets and the golds, with sprinklings of equally radiant tints.

When one of the metallic brocades is not selected, the choice invariably falls upon a brocaded or printed velvet, the printed Chin-ring, or a richly napped fabric elaborately embroidered. Like the coats of the season, it runs to great depths, for it is at knee depth that the generous band of fur adds its swirling finish. There is more of the fur banding the short sleeves and occasionally a collar across the back at the neck. And you girdle it or not as the fancy and the wearer's figure may demand. Show it with a black velours or velveteen skirt and you have the costume of the hour.

Adaptations of Home Electric Light Shade

The shade or globe that covers an electric or even a gas light when replaced by a newer design can be used as a flower holder. Merely invert the shade and place a tumbler in the middle actually to hold the flowers or ferns. The bowl has an attractive shape. If the shade is made of frosted glass it can be decorated with water-color paint. Little flowers grouped in dots, each dot composed of one color such as pink and blue and mauve, give a dainty decoration in such a receptacle.

Frosted-glass electric light shades in plain white may be made more attractive matched to the color scheme by a painted border. Bead fringe, which can be purchased by the yard and glued on, also adds a great deal of style to simple frosted-glass shades. Any color can thus be brought out to emphasize the color scheme of the room.

Linings Match Costume.

One of the smartest things you can do this season is to line your cape or coat with the same material as the frock over which you will wear it. This is particularly effective if the gown is of figured silk.

COULD HARDLY DO HER WORK

Lydia E. Pinkham's Vegetable Compound Made Her Eat, Sleep and Feel Better Every Way

Chicago, Ill.—"I was weak and run-down and in such a nervous condition that I could hardly do my work. I was tired all the time, and dizzy, and could not sleep and had no appetite. I tried different medicines for years, but they did not help me. Then I read in the papers about Lydia E. Pinkham's Vegetable Compound and what it had done for other women and gave it a trial. I began to eat better and could sleep, and consider it a wonderful medicine. I recommend it to my friends and will never be without it."—Mrs. M. OHLEN, 3640 S. Marshfield Ave., Chicago, Illinois.

It is such letters as these that testify to the value of Lydia E. Pinkham's Vegetable Compound. This woman speaks from the fullness of her heart. She describes as correctly as she can her condition, first the symptoms that bothered her the most, and later the disappearance of those symptoms. It is a sincere expression of gratitude.

For nearly fifty years Lydia E. Pinkham's Vegetable Compound has been so praised by women.

Football Season Gets Under Way in City This Afternoon

High School Has Youngwood Gridders as Opponents in Initial Clash.

BIG CROWD WILL ATTEND

Today marks the opening of the football season in Connellsville and fans were only hopeful that the cool atmosphere of the morning would predominate during the afternoon as warm sunshine would certainly tax the strength and endurance of the gridders to the limit.

Youngwood High School is the opening attraction. The Cokers have now completed one more week of hard scrimmage and the coaching staff believes it has a squad that will be able to contend with Youngwood this afternoon.

The local line-up is not by any means determined. There are a number of positions on the team that energetic and willing youths could capture if they had the initiative to go after the jobs. There is still considerable competition for a number of places.

Youngwood will arrive here on a special car this afternoon with 150 rooters. The locals held a cheering practice in the High School auditorium following dismissal yesterday and there will be a lively engagement between the rival supporters.

Of Interest to Fans.

The Pittsburg Pirates are now out of the pennant chase. The team lost both ends of a double-header with the Giants yesterday and now the only hope is for second money. The scores were 8-4 and 8-1.

* * *

Cincinnati won over Brooklyn yesterday but would have been in far better striking position of the top had the Pirates checked New York.

* * *

The new solid orange jerseys of the Connellsville High School football team will give the gridders a formidable look. It will not be hard to pick a Coker player.

* * *

Next Saturday afternoon Connellsville will play the Duquesne University High outfit.

Mount Pleasant Loses to Jeannette

MOUNT PLEASANT, Sept. 22.—The Jeannette High School defeated Mount Pleasant High in their first game by a score of 32 to 0. The Mount Pleasant boys were outweighed to a man but J. C. Haberlin, superintendent of schools, will not permit a player on the team that is not a high school student.

Adding to Abundance.

Misplaced Rejoicing.

Widower (to little daughter)—Do you know our housekeeper is going to marry?

Lillie—Hurray! I'm glad we're going to get rid of that old scarecrow. Who's she going to marry?

Father—Me!

The Penalty of Success.

The Boss—So you need more salary to take care of your dependents? When I hired you, you told me you had no dependents.

His Secretary—That was true then, but they turned up as soon as they heard I had this job.

Extenuating Circumstances.

Mrs Letts (to her cook, writing)—Another love letter, Lena. The eighth one in five days? Isn't that a little too much of a good thing?

Lena—Yas, Mrs. Letts, if all eight of dem wus for de same feller.

The squad has entered the game with the right spirit and has averaged 30 men each evening for practice.

OUR NEXT OPPORTUNITY.

Two weeks from tomorrow the opportunity will again be presented to the people of Connellsville, Dunbar, Dawson, Vanderbilt, Scottdale and other points in the Connellsville district of the Salvation Army to make subscription to the Home Service Fund of this organization for its maintenance and operation during the ensuing year.

Making appeal to the people to give their support to the splendid work the Army is doing in this district in providing relief for unfortunate persons, has been an annual effort ever since the operations of the Army were placed under the budget system. Never once has this district failed in its obligations in this respect but every year a sum sufficient to carry on the work for a twelve month has been provided. Last year something over $6,600 was raised which was ample for the needs. It is not anticipated that more will be required this year. It is very much desired, however, to secure subscriptions considerably in excess of last year's budget with the object in view of having a fairly good sized balance remaining at the end of the year to form the nest egg of a fund for buying or building a permanent home for the Army in Connellsville. For a long time it has been very much handicapped in its work for lack of proper quarters. Many of the Army's lines of helpfulness to the persons for whom it cares during the course of the year cannot be undertaken here because of inadequate facilities. These cannot be provided until the local corps has a home of its own.

The public general knows that the Army has been reaching a class of people somewhat removed from the sphere of the activities of other organizations in the community and has been ministering to their wants with an efficiency which is the result of long experience and special training of the Army workers. There is not the waste of a single penny and through the systematic administration of the Army's affairs and the willing self-sacrifice of its members it is doing a much needed work in the best possible way.

It goes without saying that in recognition of what the Army has already done, and will continue to do with characteristic faithfulness, and out of a desire to have a share in bringing relief to the less fortunate of this section, the people will be ready to respond cheerfully, generously and willing to the call for the 1923-24 budget. Doing so will be no less than keeping faith with the Salvation Army and maintaining our credit as a people that never has failed in its support of every good and worthy cause.

TO MAKE OUR HIGHWAY SYSTEM STILL MORE COMPLETE.

Pennsylvania will have exceptional opportunities from two sources for extending its program of highway improvement during the present fiscal year and for several years afterward.

By an agreement with the Federal government the state will be alloted the sum of $2,938,892 for the improvement of roads during the present fiscal year, upon the condition that the state match the appropriation dollar for dollar and see that about one-half of the roads to be improved are those over which inter-state traffic is carried.

This agreement forms an immediately available source of funds for road improvement. The second will require that some time elapse before the proceedings have been completed whereby a much larger sum will be at the disposal of the state for the purpose of highway construction. It will also require the consent of the voters to the proposed amendment to the State Constitution authorizing $50,000,000 to be added to the bonded indebtedness of the state, which will be submitted for approval at the November election.

Some misunderstanding concerning this proposition having arisen in different parts of the state, the Highway Department has issued a statement clearing up all doubtful points in relation thereto. The statement follows:

"Having been authorized by two successive Legislatures, a constitutional amendment (No. 2 on the ballot this fall), which provides for increasing the bonded indebtedness of the state from the present indebtedness of $50,000,000 to one of $100,000,000 will be presented to the voters for approval in November.

"Favorable action by the voters on this amendment will give the State Highway Department $50,000,000 for road construction purposes.

"Under previous practice this amendment would have been presented to the voters at what has heretofore been termed the general election occurring in the odd-numbered years. Court action, however, was taken as soon as the past Legislature had given the required second approval and carried promptly to the Supreme Court for decision. The Supreme Court decided that it will be constitutional to submit the amendment to the voters this fall and in consequence it will appear as Amendment No. 2 on the ballot.

"Enabling legislation was also passed the last session authorizing the issue and sale of the bonds which will result from adoption of this amendment, so that favorable action by the voters this fall on this bond issue amendment will make the money available for use as soon as the necessary formalities can be completed."

Pennsylvania's progress in road building as the result of the issuance of $50,000,000 in bonds, authorized in 1913, has been truly remarkable, placing the state in the forefront in this very essential and necessary public improvement. The benefits have been so many that it is altogether unlikely that any determined or vigorous opposition to the new bond issue will develop. It now being possible to reach any section of the state on an improved road the additional funds to become available through the new bond issue will make still further extensions of what will be the most complete state highway systems in the United States—a distinction to which Pennsylvania is by every right entitled.

Inasmuch as $10,000,000 of the total proposed issue is to be apportioned to the 67 counties of the state for the construction of secondary roads, in addition to the allotment for state roads, every voter in Fayette and every other county will have a close-at-home interest in giving his or her approval to the amendment.

A result of the primary, not reported in the returns, was to very largely increase the membership of the Also-Ran Club.

If Governor Walton and the Ku Kluxers of Oklahoma could be induced to stage their scrap in the roped arena it would draw almost as many spectators as the Dempsey-Firpo list-fest.

Padding payrolls never pays the padder.

The German scientists who claim to have discovered an "anti-tired feeling" serum have evidently been administering it to the printers who have been turning out marks by the bale.

The Winners

Uniontown Morning Herald.

The 1923 primaries are over. One of the most spirited campaigns in the history of Fayette county is now a matter of history. The winners are entitled to all the congratulations that are now coming their way while the losers have nothing of which to be ashamed. They made a vigorous campaign and they have the satisfaction of knowing that the other candidates had full realization they were in the race.

The Herald extends congratulations to the winners who go to make up the party ticket this fall. They represent the choice of the voters. They are the men selected by the voters to carry the fight against the Democratic standard-bearers at the November election. Chosen in an open primary—in more ways than one one of the most open ever held by the Republican party in this county; strong and capable representatives of the party, who have demonstrated their strength with the rank and file. The Herald enthusiastically bespeaks for every winner the hearty support of every good Republican. They are entitled to it for they deserve it. They will prove worthy of the confidence placed in them by the voters.

The Herald will find real pleasure in giving its unqualified and wholehearted support to every man who will be a part of the strong ticket selected by the voters and believes that the November victory will be one of the most satisfactory and satisfying triumphs ever achieved by the Republican party of Fayette county.

The Law is the Law

Harrisburg Telegraph.

It is difficult to get anything like a correct impression of what is back of the reign of terror in Oklahoma, but enough is apparent to make it reasonably certain that Governor Walton's actions are not without some reason. It would appear that the governor is impulsive to the point of being hotheaded and it is not unlikely a lot of petty politics is mixed up in the muddle.

Nevertheless there is beyond question a state of disorder in Oklahoma calling for correction, and if the governor cannot deal with it successfully without troops, then he is justified in calling out the guard.

Ku Klux Klan, outsiders masquerading as Ku Kluxers or any other body or mob of citizens taking the law into their own hands, must be dealt with as the law provides. Once we admit there is in the land a force greater than in the law, or which the law cannot touch, then all law must fall and anarchy must follow. There can be no middle ground. Either the law is law or it is not. Conditions in Oklahoma are intolerable. If Governor Walton and his troops cannot meet them President Coolidge can.

TIED DOWN.

"They tie you down," a woman said,
Whose cheeks should have been flaming red
With shame to speak of children so.
"When babies come you cannot go
In search of pleasure with your friends,
And all your happy wandering ends,
The things you like you cannot do,
For babies make a slave of you."

I looked at her and said: "'Tis true
That children make a slave of you.
And tie you down with many a knot,
But have you never thought of what
It is of happiness and pride
That little babies have you tied?
Do you not miss the greater joys
That come with little girls and boys?

"They tie you down to laughter rare,
To hours of smiles and hours of care,
To nights of watching and to fear;
Sometimes they tie you down to tears
And then repay you with a smile,
And make your trouble all worth while
They tie you fast to chubby feet,
And cheeks of pink and kisses sweet.

"They fasten you with cords of love,
To God divine, who reigns above.
They tie you, wherever you roam,
Unto the little place called home;
And over sea or railroad track
They tug at you to bring you back.
The happiest people in the town
Are those the babies have tied down.

"Oh, go your selfish way and free,
But hampered I would rather be,
Yes rather than a kingly crown,
I would be, what you term tied down;
Tied down to dancing eyes and charms,
Held fast by chubby, dimpled arms.
The fettered slave of girl and boy
And win from them earth's finest joy."

WHERE THE CHILDREN ARE.

The houses where the children are
Have laughter through the day,
The music sweet of pattering feet
And the sounds of merry play,
The sunny skies of glistening eyes
And the countless charms of May,

The houses where the children are
Hear lullabies at night,
And round each bed the fairies tread
And the pirates come to fight,
And the blood is thrilled as each room is filled
With visions of delight.

The houses where the children are
Are seldom dull or sad,
Where children dwell there's much to tell
And much to keep you glad.
Never lonely he who keeps company
With a little girl or lad.

The houses where the children are
Need naught of earthly pride,
The wind may blow through the cracks, but Oh,
There are joys and mirth inside,
And rich are they where the children play,
For their loves are multiplied

The houses where the children are
God's tenderest blessings know
The rafters ring with the songs they sing
As the long days come and go,
And whatever the care, there's a welcome there
And a kiss for every blow.

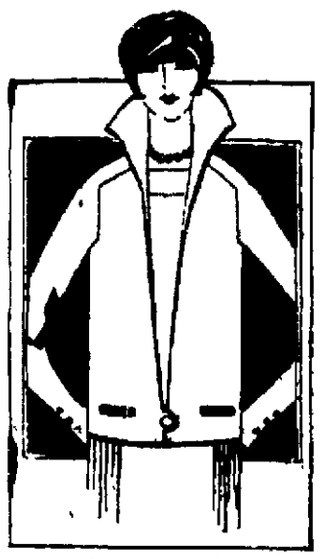
Separate Coat Is in Milady's Favor

Charming Colors and Fabrics Feature Early Fall Modes.

The little separate coats are still going strong and they are made of most fascinating colors and fabrics, notes a fashion writer in the New York Times. There are those of jersey cloth and flannel. Some are made of the thick, woolly surfaced cloths. Others are shaped from matelasse or some all-over embroidered fabric. Others, and perhaps the most popular of all, are made of the heavy woolly knitted materials, looking when finished like some sort of an ethereallxed sweater.

All of these separate jackets are worn with plaited skirts or those that are plain, and the shirtwaists underneath them can be either of that strictly tailored variety in heavy silk or of the lingerie sort that never fails to have its hold on the attention of the feminine gender.

One nice little coat was made of light blue and dark blue blocked woolen material and was worn with a dark blue plaited flannel skirt and a gray crepe blouse, all closely plaited. It was just as interesting as it could



Separate Coat of Green Jersey Cloth, Bound With Black Silk Braid, and Worn With Black Silk Turban.

be and would do equally well for strictly country wear or for mornings on a city street.

The beautiful part about the lately evolved sport clothes is that they are so interchangeable in character. They are so plain and simple that they look perfectly well for town wear, and yet they fit in splendidly with most of the outdoor activities in the country.

Among The Churches

FIRST UNITED PRESBYTERIAN—Where Morton crosses Pittsburg. Francis J. Scott, D. D., minister. Bible school at 9:45 A. M. Morning worship at 11. The sermon is from the text, Matt. 5:13 and the subject is "The Forgotten Element of Joy." What is the tragedy of the world today? Is it not scarceness of enjoyments but the inability to enjoy. Can there be any thing sadder than a man in whom the joy of living has died out trying to get back the joys of youth and cannot do so. The atrophied capacity of the soul is the tragedy. When we have no inner joy we are compelled to rely on amusements as an outer stimulus. This is the reason for the feverish search for new thrills today in amusements. Come hear it all. The evening service begins at 7:45. The sermon is a continuation of last Sunday evening's sermon. The subject is "Take Care of Him." You are welcome.

FIRST PRESBYTERIAN — J. L. Proudfit, pastor; W. P. Russell, assistant. Bible school, 9 45. Morning service, 11; evening service, 7.30. Wednesday evening prayer meeting, 7:45. "The Whisper of God" is the morning theme. God hath spoken by divers portions and in divers manners; His voice has rent the heavens and shaken the earth; He has also spoken forgiveness to those who have sinned and promised rest to the weary. Sometimes in love and mercy, sometimes in wrath and judgment, He speaks; yet "how shall a whisper do we hear of Him." But even that whisper, if it be in love, is to the faint and discouraged and erring the sweetest thing on earth.

That She Doesn't Care for An Ice Cream Soda.

"This thing of saying you can't save anything!" said Frances, the stenographer, to Frank, the bookkeeper, "is all nonsense. You make twice as much as I do. I save a little every week; so can you. No, I don't want an ice cream soda. Save the money and drop it into one of the First National Bank's Automatic Tellers. Another Petty Hard Coal Strike

By United Press.

WILKES-BARRE, Sept. 22.—Another petty strike developed here today, bringing the number to four since the resumption of mining under the new contract Wednesday, involving a total of more than 7,000 men.

More than 900 men at the No. 9 colliery of the Lehigh & Wilkes-Barre Coal Company walked out this morning alleging that the company was trying to retain some employes who were given the eight-hour day under the new contract on the 12-hour day by the "split" shift, four hours on and four hours off. They also alleged that the company has failed to give some miners the 10 per cent wage increase as agreed in the new contract.

75TH ANNIVERSARY OF COMRADE CLELLAND OCCASION FOR FEAST

The 75th anniversary of the birth of C. M. Clelland, member of Company F, 14th Pennsylvania Cavalry of Civil War days, was observed Friday when members of William F. Kurtz Post of the Grand Army of the Republic and others gathered at the Clelland home at Vanderbilt for dinner and a "general jollification." September 21 was not the anniversary date, Mr. Clelland having postponed it from January 19 in order to have better weather.

With the "boys" all on hand and with the home resplendent in the national colors, Commander W. P. Clark of Kurtz Post called the gathering to order at 3 o'clock. After all had joined in "America," Rev. C. H. Beall, pastor of the Methodist Episcopal Church, offered prayer. Then followed greetings and speeches, and a musical program.

Rev. Beall told some amusing stories. Miss Lauretta Clelland recited "A Lecture by One of the Sex." Miss Hazel Clelland gave a reading, "The Whistling Regiment," with Mrs. Frank Barricklow playing an accompaniment on the piano. A reading by Miss Elizabeth Rupp followed. Mrs. Barricklow sang, "Smilin' Thru" and Colonel Barnhart came along with "The Old Woman Who Lived Under the Hill."

Dinner—chicken and "trimmings"—was served at 4:30 by Mrs. Clelland and her daughters. After the feast a male quartet composed of Homer C. Davis, George Laing, William Gray and Herbert Ellis, sang a number of selections. The affair ended with a vote of thanks to the Clellands for the excellent entertainment and dinner.

Members of the post present were: W. P. Clark, Charles H. Whiteley, Colonel J. J. Barnhart, Captain E. Dunn, A. R. Brashear, Charles Hill, John Robinson, C. M. Clelland, John E. Jones, Abram S. Haddock and J. E. Giles.

Other guests were: Mr. and Mrs. A. P. Clelland and son, Star Junction; Mr. and Mrs. Otto Murray, son-in-law and daughter, Uniontown, No. 1; George and Clifton Clelland, sons and their wives, Star Junction; Mr. and Mrs. Homer Davis, Connellsville, the latter a daughter of Mr. Clelland; Mrs. Mary Patterson and Miss Zona Gibson, sisters-in-law, Connellsville; Miss Fern Clelland and Junior Davis, grandchildren; Dr. H. J. Hazlett, Mr. and Mrs. William Bailey, Vanderbilt; Allen Snyder and Mrs. Peter M. Murphy, Connellsville.

Salvation Army to Collect Clothing To Send to Japan

In addition to the $1,000,000 in cash which the Salvation Army has pledged and is raising for relief of the Japanese earthquake sufferers, collections are being made of clothing of all kinds for men, women and children, bed clothes, wraps and other articles necessary for bodily comfort.

The precise plan for making collections has not been announced but it has been suggested that there be a "Bundle Day" in each community where a corps of the Army is stationed at which time some central point will be designated as the place for the gathering of garments and materials.

The Army plans to send several shiploads to Japan before December 1 at which time extreme cold weather prevails in that country.

Ensign Parkins, of the local corps will announce later the arrangements for receiving donations in this vicinity.

GOODNIGHT

by Grace E. Hall

Good-night shall sometime mean good-bye forever,
The hour-glass is too far away to see;
The sands are running swiftly, and they seve:
The dearest ties most unexp

Good-night! Who knows the import of the parting?
Perhaps at dawn the silence shall be all;
'Tis sad that memory brings pain and smartin
As we so oft a cold good-night recall.

Good-night may mean forever. We are going
As flows the rushing stream where it must flow,
And Destiny our fragile craft is rowing—
We answer when the signal comes to go.

Within the homing harbor, all unheeding,
We bid departing friend a blithe good-night,
Yet ere the sunrise he may be swift-speeding
Far out, while tear-mist blurs his sail from sight.

SAVED BY BATH OF KEROSENE

Timepiece That Suffered from Immersion in Ocean Made Practically as Good as New.

In a crowded Long Beach bathhouse the other Sunday an absent-minded bather was audibly mourning for his wrist watch which he had forgotten to remove when he dashed into the surf, says the New York Sun and Globe.

"Wasn't that a stupid thing to do?" he asked the man struggling into his clothes at the adjoining locker and displaying the sodden timepiece. "I hate to lose this watch. Present when I enlisted during the war—association—memories—you know."

"You can't take it to a jeweler tonight of course," the mourner's neighbor replied. "But when you get home place the watch in kerosene and take it to the cleaner in the morning.

"When I was in the navy I fell overboard while wearing my watch and an old tar gave me the tip I'm passing on to you."

The man followed instructions and whether it is to the kerosene or the jeweler that the credit is due the watch is none the worse for its ducking.

FINALLY MADE WANTS KNOWN

Small Boy's Request Somewhat Twisted, but Probably He Got What He Was Sent For.

The little fellow was so short that he could hardly see over the wrapping counter at the bakery.

"Well, bub, what do you want?" the man behind the counter asked.

The little fellow was scared—too scared to talk, so he just shoved his dime over the counter and waited.

"Oh! You want to give me a dime, do you?" the man asked.

"Nope," the lad gulped.

"Then what? Want to buy ice cream and candy with it?"

This time the youngster could only shake his head, but he was quite evidently wondering at the stupidity of those great, big grown-up people. The clerk thought he was being very clever with the youngster, so he continued:

"Well," I'll just take your money and put it in my cash register, so you won't lose it. How'll that be?"

The little fellow was beginning to get scared. Tears were not far away. But he managed to blurt out:

"My mamma wants a bake of loafer's bread!"—Kansas City Star.

Spain Goes in for Sports.
Sports of all kinds are increasing in popularity in Spain at a tremendous rate. Football especially seems to have taken the country by storm, the games being attended quite often by 30,000 or 40,000 enthusiasts. Tennis is fairly popular throughout Spain and is played practically all year round. A fair share of the tennis equipment is American, especially the high-priced American rackets. Golf is followed to some extent by the aristocrats of Spain and by resident foreigners in the cities, but aside from it is not very popular. A large number of American motorcycles are in use in the army and in taxi service in the various cities. Ice skating was introduced to the Spanish public this year by means of an artificial ice rink, but it is felt that it is too fashionable to be popular; although many of the local sporting goods dealers ordered stocks of skates, shoes and hockey equipment. (Commercial Attache, Charles H. Cunningham, Spain, April 5.)

Royal Rights.
In accordance with an ancient royal custom, King George has the right by statute to the head of every whale caught on the coasts of his kingdom. The tail is to go to the queen, that her wardrobe shall be furnished with whalebone. The king is also entitled to every sturgeon brought to land in the United Kingdom, and should receive, too, every year from divers persons a tablecloth worth 3s., two white doves, two white hares, a catapult, a pound of cumin seed, a horse and butter, a pair of scarlet hose, and a silver needle from his tailor.

Port of Vancouver.
Vancouver passed Montreal in 1922 as the first Canadian port regarding ocean going tonnage. Vancouver reports 3,967,000 tons and Montreal 3,453,000 tons. The harbor of Vancouver is open to ocean-going ships throughout the year, and also there was a considerable amount of coastwise shipping, while at Montreal there is little or no shipping of this character. Eleven steamship lines connect Vancouver with Liverpool, Bristol and London.

Cleaning Eye Glasses.
During hot weather it is well to wash your eye-glasses in water to which a few drops of ammonia have been added. The ordinary alcohol and water mixture is a better wash for them in winter-time, as is a solution of soap suds. Use this latter in winter only, polishing the glasses without rinsing them. An invisible film of soap remains which prevents the glasses from steaming.

THE BLOOD TEST with Dick Hatton in the stellar role is being shown today at this theatre

As the care free whole-hearted young chap of the plains there could be found no more suitable character than Hatton whose ability as an actor stunt-man and horseman is recognized and appreciated by all those who have had the good fortune of distributing or running his pictures.

The direction is handled by Don Marq Hix Probably there is none to be found more able fit to mould these stories for the screen than he

He has lent twelve years to the serious business of making motion pictures and his knowledge of every branch is fine An artist by profession and former manager of publicity and exploitation for one of the coast largest studios readily conveys to you the power which he has at will to put into the many angles of exploitation for this series

Monday and Tuesday The Self Made Wife featuring an all star cast will be shown.

The Soisson

"TRUXTON KING" a drama of Graustark and an American who saved a throne the feature picture to day at theatre features Jack Gilbert in the title role

In Gilbert you will find a thousand actors in one with his thousand twists of humor tides of dramatic strength and glow of magnetism His love scenes are realistic without a tinge of oozing weary sentiment There is a sunshine in this screen art that reflects itself in the thou and glistening facets of Gilbert's masterful portrayal

There are many neat bits of comedy in which Hal Mickey Moore has a share Allen too there is Otis Harlan whose grotesque drolleries only fall plus in the character of a Cook's Tour Guide If you want to laugh see "Truxton King" if you want excitement see it if you like entertainment don't miss it.

Monday Tuesday and Wednesday of next week Dorothy Phillips will be seen in Slander the Woman

The Orpheum

"A GENTLEMAN OF LEISURE" the leading attraction today at this theatre presents Jack Holt in the stellar role

Mr Holt as Robert Pitt charged with unlawful entry into the home of a Deputy Police Commissioner explains his presence here Big Phil the Commissioner won't let Pitt's easy going manner is about to free him when he recognizes Robert's accomplice Spike Mullens whom Creedon himself had let loose of insufficient evidence been called to explain that same morning It is then that Creedon decides to turn the page over to the police but does he do so? If he does how can Bob explain the situation to the satisfaction of all concerned? And if he doesn't do Pitt and Spike continue along similar lines of adventure? These and all other questions that might happen to enter one's mind are best answered by a view of this fast-moving comedy-drama in which Mr Holt is supported by Sigrid Solmquist leading woman Casson Ferguson Alec Francis and many other prominent players.

Monday Tuesday and Wednesday of next week Bebe Daniel and Antonio Moreno will appear in The Exciters

The Arcade

Two of the greatest trick jazz musicians of the country will be heard when the La Paradise Orchestra appears at the Arcade Theatre next week in Louis Mango and Vincent Sartino Mango plays saxaphone and clarinet while Sartino is a cornetist and what these two boys can't do with their instruments would be difficult to do indeed They make them laugh cry and whine out the weirdest kind of musical noises but that is not their limit as both are splendid musicians playing the very best music and they will not confine their talent alone to the jazz but play genuine melodies of the best type If you watch this team you will enjoy some of the liliest tricks in syncopated music and best of all is they enjoy their efforts to entertain quite as much as their audiences do being entertained by them The other members of this outfit are equally as clever as these chaps and each member is a soloist or specialist in his line, making a really fine and extraordinary entertainment

The six McQuaide Kiddies known from coast to coast appear as an exceptional added attraction The children are different than other kid acts of a similar nature in that they are said to excel in harmony singing and dancing Most kid acts are a little weak on these points but the McQuaide Kiddies are there on both these scores The usual feature picture will also be shown

The Problem of Eye Health

Is a very important one It applies to all classes of people of all ages and both sexes.

It is known that most eyes are far from normal, so that this subject should have a direct appeal to thousands who never give it a thought until they are really forced to it By rights EVERYONE should have their eyes examined so that if a defect in vision is present it can be given the necessary attention before it is allowed to go too far Too many keep putting it off until they cannot be made to see normally Some eyes are in such shape that all that glasses will do is improve the vision We cannot promise perfect vision in every case but what we do promise is the best vision possible in the circumstances, and that is a distinct advantage to the patient The person who uses judgment in looking after his eyes is more assured of good vision and comfort in later years than the person who does not think of his eye welfare and just "buys a pair of glasses" where he thinks he gets them the cheapest.

We use no drops nor drugs in our examination. Modern instruments and appliances make it unnecessary

Bracelet Is Worn by Stylish Women

Accessory Made Attractive by Use of Fancy Cut Diamonds.

If any one article of jewelry can be said to be more popular than another it is the bracelet, writes a fashion authority in the New York Tribune. Not one but many bracelets are worn by fashionable women. The bangle or rigid style of bracelet is not used. The keynote of the fashionable bracelet is flexibility, and very lovely are bands of pure, sparkling diamonds. They are very often combined with onyx, forming the popular black and white effects.

A new note in bracelets, and one particularly suitable because of its light and pure aspect, is the use of fancy cut diamonds, alternating triangular, square and flower shapes.

The jeweled girdle brings a barbaric note to jewelry. The girdle derives its inspiration from the Oriental and Egyptian nations. It is developed in varying materials according to the costume and the time at which it is worn. For the formal evening gown there are girdles composed entirely of diamonds in platinum with buckles of diamonds.

Another formal girdle is made of diamonds combined with links of black enamel. There are also girdles made entirely of rows of pearls. Suitable for wear with filmy dresses are girdles of silver ribbon clasped by buckles of carved jade and other semi-precious stones.

The headband retains its popularity for evening wear. Naturally for the less formal dance it is extremely simple and consists of a narrow band of diamonds enclosed in borders of small pearls.

The headband is worn low over the forehead and clasps at the back of the head. It, therefore, fulfills the double purpose of beauty and usefulness in confining the coiffure, which perhaps has not yet grown to its full length. With such a headband one can easily change the day coiffure to an evening one suitable for dinner or the dance. With the headband, especially those combined with pearls, is worn a single string of pearls, carrying out again the ever-present motive of harmony in jewelry.

Pearls are popular for all occasions. Charming inspirations in earrings are those of turquoise globes suspended from links of diamonds; crystal combined with sapphires, and jade carved or in combination with onyx and diamonds.

Wrap for Cool Days of Late Summer and Fall

This brown and tan sport coat, to the beauty of which is added a red fox collar, should be popular during the latter part of the summer and for fall wear.

Hand-Knit Capes to Wear for Motoring

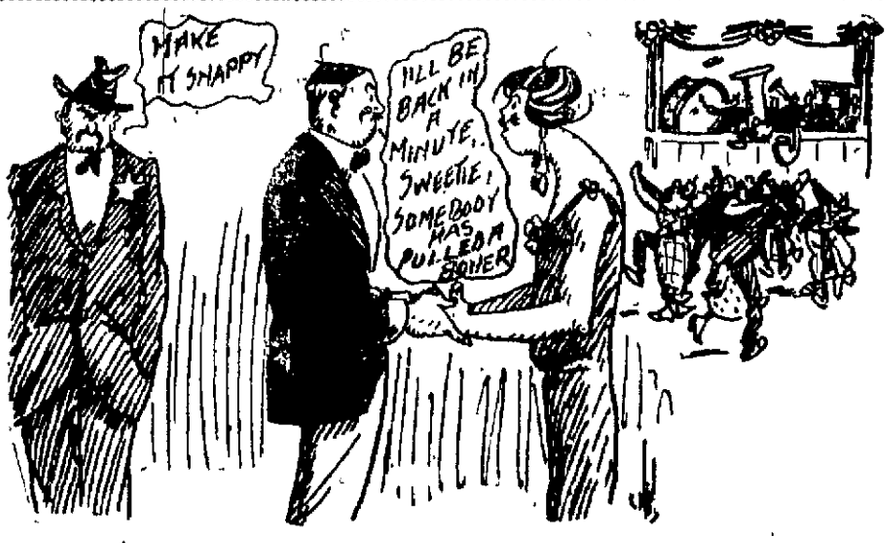
No well-dressed woman will wear a machine-knit cape or sweater. Hand-knit garments have a distinction all their own. Wealthy women who do not have time or inclination to knit, patronize the exclusive shops where only hand-knit garments are sold, and they pay anything from $25 to $100 for original designs in hand-knit wear.

At present the hand-knit cape for motor wear is the style on the Riviera and other exclusive resorts in Europe, where styles are set. The cape reaches well to the bottom of the dress. It is done in the simple knitting stitch, or in a combination of knit a few, purl a few. The capes are in one color or two tones, although the Roman stripe plays its part. Roll collars of brushed yarn or angora top the cape, which ties with braided or crocheted streamers to match the collar. It takes little more yarn to make a cape than it does to make a sweater. And no more time.

Coughs Disturb School Work.

School teachers should give the same advice to children who have coughs as did this Florida teacher, "I recommended Foley's Honey and Tar to the children in my school who had the 'flu' and good results came whenever it was used," writes Mrs. L. Armstrong, Okeechobee, Florida. Foley's Honey and Tar contains no opiate or injurious ingredients printed on the wrapper. Quickly relieves colds, coughs and croup. Sold everywhere.—Advertisement.

ABE MARTIN On Pickin' Up With Strangers



LITTLE DID GOLDIE REALIZE THAT SHE WUZ LOOKIN' INT' "JACK'S" EYES FER TH' LAST TIME

Too much kin not be said against th' indiscriminate takin' up with strangers, whether while out o' town, at our own front doors, in th' ball room, in th' common routine o' business, or while passin' a hotel. Ther's many a man slinkin' along on his uppers t'day on account o' havin' picked up with a stranger. Great business institutions have gone t' th' wall, an' many happy homes have been wrecked through puttin' too much confidence in affable, pleasant appearin' strangers. Many a maiden has been cut down at th' zenith of her glory by bein' carried away by th' dash an' lavish attentions o' one she know nothin' of 'cept he wuz mighty liberal. Nifty strangers are playin' ther trickery ever'where. Good looks, good clothes an' gentlemanly bearin' make up ther sole stock in trade. Ther all right as far as we kin see, but we can't see an ulterior motive till it's too late. Women strangers are 'specially dangerous. Few men are proof agin a purty woman whether she's a stranger or not. Great financial institutions have fallen under th' spell o' a designin' woman, an' most o' th' purty ones are a little designy. Great statesmen have succumbed t th' artfulness of willowy vamps, kind fathers an' good husbands have fallen from grace only t' be gipped an dumped an' left friendless in Iowa, or somewhere, thro' silly infatuations for strange, flashy adventuresses. Ther hain't a town or village in th' country that hain't been torn up by strangers, male or female, an' half th dirt that strangers do never comes t' light. Jest recall th' money Jake Bentley used t' have, an' he don't know t' this day who got it—he wouldn' know th' feller if he saw him. Let's take th' case o' Miss Goldie Plum. Think o' what might have befallen her thro' pickin' up with a gay devil she'd never before set eyes on—one "Jack Dumont." "Jack" dropped int' town an' immediately become pop'lar with ever'buddy. He hung around Apple Grove Park, where his gentlemanly conduct, fancy dancin', oarsmanship, swimmin', an' cream flannel pants an' snowy shirts wuz th' admiration of all. Invariably bareheaded, pleasant an' attentive he even fell int' th' good graces o' th' dry ferrets. Jest a week ago t'night Miss Plum, radiant an' happy, wuz dancin' with "Dumont" in th' gay pavilion at Apple Grove Park, dreamin' o' th' future an' lappin' up th' sweet strains o' "Yes, We Have No Bananas," when a federal officer tapped "Jack" on th' shoulder. Excusin' himself, he said t' Goldie, "I'll be back in a minute, Sweetie, somebuddy's pulled a boner." But he won't be back, fer "Jack Dumont," who turned out t be Oscar Witherby, is wanted in a dozen states, includin' even Montana, fer murder, bank robbin', rum runnin', auto takin', arson, bigamy, an' exceedin' th' speed limitations.

Here's the New Special Sedan

Many Costly Improvements—No Advance in Price

HERE'S the new Jewett Six Special Sedan — with 12 major improvements and countless refinements — at the same low price, $1695 f.o.b. factory.

To improve the Jewett was in itself an achievement—to do it at the same price is unheard of these days. Thousands of owners pronounced it "perfect" as it was—perfect in its tremendous, "peppy" power and marvelous pick-up; perfect in its handling ease and big car riding comfort. Now these new Jewett Sixes even ADD TO Jewett's previous goodness.

Now there are larger brake drums. Heavier, stronger wheels. Pressure oiled chassis. Improved valve mechanism. Improved Rayfield carburetor. More convenient gear shift. New type spark and throttle control. New instrument board, oval panel. New type non-glaring headlight reflectors. Deeper front seats, comfortably tilted. Still finer upholstery.

The Jewett Special Sedan is smart and stylish. Envious eyes everywhere mark its Japanese blue and black and nickel harmony. It is completely equipped. Nickel plated bumpers, front and rear; nickel plated motometer. Extra cord tire, tube, rim and cover. Rear view mirror. Automatic stop light; automatic windshield wiper—and all the things discriminating motorists demand—including trunk—at $1695 factory. A real buy always—a BETTER buy now. Come in and see it. Drive it, yourself. See what it means to handle this "closed car with open car performance"—the fine six at the price of a four! (620)
